Freelance Outdoor Writer - Hunting Seminar Speaker - Promotion - Hunter Education Instructor - Hunting Strategy Consultant

Othmar Vohringer Biography

Othmar feels fortunate to be born into a hunting and fishing family. The lifelong exposure to the outdoors and hunting tradition has given him a deep understanding and appreciation for nature and wildlife. It is no surprise then that Othmar chose a profession in the field of animal study and ended up becoming a worldwide respected animal behaviourist and animal trainer.

His vast professional knowledge of animal behaviour combined with his hunting expertise has made him a respected authority in the hunting community and industry. He is a tireless promoter of the hunting sport and recruiting new and young hunters. With that background it might not come as a surprise to you that Othmar does not regard hunting as a sport, although it is a sport, but rather as his way of life. Hunting is more than just going out to hunt animals; hunting was, and still is, an all year round activity for him.

As a popular seminar speaker and outdoor writer he talks and writes about hunting. As a registered hunter education instructor of British Columbia and his hunting courses he actively contributes to the preservation of our hunting heritage and the recruitment of new hunters and conservationists. As a member of the B.C. Wildlife Federation and the Nicola Valley Fish & Game Club, plus a variety of other notable organizations he actively supports a variety of wildlife and habitat conservation programs. Like he said; "Hunting and conservation is my way of life."

When Othmar isn't hunting, writing, talking or teaching he is out in the field expanding his vast knowledge about wildlife and nature.
